Scientists have not always written in passive voice. First-person pronouns such as I and we began to disappear

from scientific writing in the United States in the 1920s when active voice was replaced by today's inflexible, impersonal and often boring style of scientific writing. (Randy Moore, editor, The American biology teacher, here).

Vocology is the science and practice of voice habilitation. Basically, it's the nitty-gritty of how we make sound and how we teach people to make the sounds they want to make.

VoiceScienceWorks - Welcome

Now, Johan Sundberg's "The Science of the Singing Voice" illustrated with over a hundred instructive and significant diagrams and drawings thoroughly describes the structure and functions of the vocal organs in singing, from the aerodynamics of respiration through the dynamics of articulation." Although there are numerous books dealing with the science and acoustics of speech, there are relatively few that deal with the singing voice as distinct from the speaking voice.
