Because this answer file is cached, when you run the Sysprep command, the system applies settings in the cached answer file. If you use the settings in a different answer file, you can specify a separate Unattend.xml file by using the Sysprep /unattend:<file_name> option. For more information, see Sysprep Command-Line Options. For more information about how to use an implicit answer-file search, see Windows Setup Automation Overview.

One of the missing options of sysprep in my opinion is to just generalize an installation. Alternatives are to use third-party utilities to reset the computers' SID, but since it's not an official solution, I will show you how to do it the 'official way' by using an answer file.

Windows Sysprep Image Without OOBE With User

You can use an answer file together with the System Preparation (Sysprep) tool. It allows configuring unattended Windows Setup settings. This step is optional (used to automatically specify various parameters that must be configured when the image is at first run). You can skip this step, and go straight to the step of capturing a Windows image.

Windows System Image Manager is the tool used to create an unattended Windows Setup answer file. Windows AFG, however, does not need the

Windows Automated Installation Kit or Windows Assessment and Deployment Kit to be installed or downloaded.

Windows AFG provides a simple web based form that gives the user options to configure the desired answer file; which is all based off Windows SIM.

Copy the answer file into the image into the \Windows\Panther folder, and name it unattend.xml. The Panther folder is one of the folders where Windows searches for an answer file. Create the folder if it doesn't exist. If there's an existing answer file, replace it or use Windows System Image Manager to edit/combine settings if necessary.

There's a utility called setupmgr.exe in the archive which is what we can use to build the majority of the answer file for us. Most of it is self explanatory, I've included screenshots and explanations of steps that require some planning/thought. The first question of note is what type of answer file to build.
