In applied linguistics, the case study has been employed principally as a tool to trace the language development of the first and second language learners(5). Thus, we should take a look to previous important case studies concerning language acquisition.

Second Language Acquisition: A Case Study

This PGCE-MEd course adopts a broad definition of the term "second language education". It considers issues relating to the teaching and learning of languages in schools and communities as well as issues relating to the teaching of English as a second, foreign, or additional language across the world. A special feature of the course is its broad-based training which enables students to combine linguistic and social analysis in their research..

Master of Education (Research in Second Language Education ...

A person's second language, or L2, is a language that is not the native language of the speaker, but is learned later. A speaker's dominant language, which is the language a speaker uses most or is most comfortable with, is not necessarily the speaker's first language. The second language can also be the dominant one. For example, the Canadian census defines first language for its purposes as "the first language learned in childhood and still spoken", recognizing that for some, the earliest lang
