account (to calculate the total cost of production) ... • Stocks of raw materials and work-in-progress are taken in the manufacturing account and stock of finished goods is taken in the trading account.

Accounting revision: MANUFACTURING ACCOUNTS

To account for all expenses it incurs while making products for resale, a manufacturing company has a cost of goods manufactured account. The cost of goods manufactured includes three types of inventory: direct materials, work in process, and finished goods. Direct material inventory The direct material (also known as raw materials) inventory reflects all
