Power Through Constructive Thinking *Pickle Partners Publishing*

Originally published in 1932 by the renowned New Thought spiritual leader Emmet Fox, this book is intended to teach the principles of life-building through constructive thought. "All power

lies is creative thought. Thought is the key to life; for as a man thinketh in his heart, so is he. People are beginning to understand today something of the power of thought to shape the individual's destiny—they know vaguely that thoughts are things—but how the Great Law of thought is to be applied they do not know. "This book shows that your destiny is really in your own hands, because it is impossible to think one thing and produce another, and that by the selection of correct thought a harmonious and happy life is produced. It shows that weak and fickle thinking produces a drifting and wasted life, and that positive thinking produces success and happiness. It shows that fear is the ultimate cause of Tap-Root of all sickness, failure, and disappointment.

And it shows the only possible method of overcoming fear."

Diagrams for Living

The Bible Unveiled *Harper Collins*

A beloved teacher and best-selling author offers diagrams for living to show "how you can come out of limitation and find real happiness." Fox has inspired millions of people over the past forty years through his simple, practical guidelines. In *Diagrams for Living* he presents valuable keys to living a more fulfilled life drawn from the eloquent spiritual wisdom of the Bible. If we read the Bible literally, cautions Fox, we miss the eternal power and personal relevance found in its symbols, allegories, and parables. "Whether you realize it or not," he writes, "you are on every page from Genesis to Revelation." Fox shows how to read dramatic biblical

stories as symbolic diagrams for living that can "show you how to overcome difficulties and problems, and how to give expression to the deep aspirations that lie hidden in your soul." This power to reveal, inspire, and guide makes the Bible's teachings adaptable to everyone at every stage of spiritual development. Sensible, contemporary, and full of reassurance, *Diagrams for Living* offers sage counsel from a gifted teacher.

The Recovery Bible

Discover the Classic Books That Inspired the Founders of the Modern Recovery Movement *Penguin*

The founders of the modern recovery movement, including Bill Wilson, Bob Smith, and other early AAs, were deeply

influenced by a handful of inspirational authors, from whom they received practical guidance, key insights, and concrete ideas. Their explorations of inspirational literature and useable spiritual methods gave rise to the program of spiritual self-help now practiced around the world as the twelve-step tradition. Now, some of the core books that both inspired and were produced by the early twelve-steppers and recovery pioneers – including the first edition of the 1939 landmark Alcoholic Anonymous – are collected in this powerful resource, *The Recovery Bible*. Here are early writings by the visionaries of recovery. Their work retains all of its impact and life-changing power – now at the ready for study, immediate guidance, and a lifetime of

re-exploration in this one volume. *The Recovery Bible* includes: -Alcoholics Anonymous, the original 1939 landmark - *The Greatest Thing in the World* by Henry Drummond -*In Tune with the Infinite* by Ralph Waldo Trine -*The Mental Equivalent* by Emmet Fox - *As a Man Thinketh* by James Allen -*The 23rd and 91st Psalms* -*Religion that Works* by the Rev. Sam Shoemaker -*The Varieties of Religious Experience* by William James

The Mango Opera *Minotaur Books*

island lifestyle shatters. One after another, someone is killing women who have intimately crossed Alex Rutledge's path. Maybe it's a coincidence. Maybe it's a conspiracy. Or maybe he's crazy. But the connection marks Alex as the prime suspect in a case so hot it's drawn in the county sheriff, the FBI, and the Bureau of Alcohol, Tobacco, and Firearms. In a desperate race to save his name and his life, Alex dives into a one-man search for the dark, sweltering truth beneath a case that's pounding toward meltdown, in *The Mango Opera* by Tom Corcoran.

Against Our Will

Men, Women and Rape *Open Road Media*

Susan Brownmiller's groundbreaking bestseller uncovers the culture of violence against women with a devastating exploration of the history of rape—now with a new preface by the author exposing the undercurrents of rape still present today. Rape, as author Susan Brownmiller proves in her startling and important book, is not about sex but about power, fear, and subjugation. For thousands of years, it has been viewed as an acceptable “spoils of war,” used as a weapon by invading armies to crush the will of the conquered. The act of rape against women has long been cloaked in lies and false justifications. It is ignored, tolerated, even encouraged by governments and military leaders, misunderstood by police and security organizations, freely employed by

domineering husbands and lovers, downplayed by medical and legal professionals more inclined to “blame the victim,” and, perhaps most shockingly, accepted in supposedly civilized societies worldwide, including the United States. *Against Our Will* is a classic work that has been widely credited with changing prevailing attitudes about violence against women by awakening the public to the true and continuing tragedy of rape around the globe and throughout the ages. Selected by the New York Times Book Review as an Outstanding Book of the Year and included among the New York Public Library’s Books of the Century, *Against Our Will* remains an essential work of sociological and historical importance.

Alter Your Life *HarperOne*

A rousing action program for overcoming adversity and taking charge of life -- by

one of our century's greatest mystics. For unhappiness, frustration, loneliness, and other afflictions of the spirit, Dr. Emmet Fox prescribes a powerful remedy based on the life and message of Jesus. In *Alter Your Life*, Fox explains that these "dreary" problems are actually bad habits of mind -- habits from which we can free ourselves. "There is no necessity for anything but success, good health, prosperity, and an abounding interest and joy in life," Fox writes. Through a series of brief meditations, Fox shows us how to exchange our bad habits of mind for the healthy ones demonstrated by Jesus. Based upon biblical texts, *Alter Your Life* offers a progressive, life-changing course designed for all readers, whether or not they have read a religious book before.

The Nevada Test Site *Princeton University Press*

"Emmet Gowin likes to ask a provocative question: "Which country on earth has had the largest number of nuclear bombs detonated within its borders?" The answer is the United States. Covering approximately 680 square miles, the Nevada National Security Site, formerly known as the Nevada Test Site, was the primary testing location of American nuclear devices from 1951 to 1992; 1,021 announced nuclear tests occurred there, 921 of which were underground. The site, which is closed to the public, including its airspace, contains 28 areas, 1,100 buildings, 400 miles of paved roads, 300 miles of unpaved roads, 10 heliports, and two airstrips. Its surface is covered with

subsidence craters from testing, and in places looks like the moon. In 1996, Gowin received permission to document the landscape by air, after over a decade of working to secure access. These aerial views of environmental devastation--made quietly majestic but no less potent in the hands of a master photographer--unveil environmental travesties on a grand scale. While groups of images from the Nevada Test Site series have been published previously, this book will produce the largest number yet, and three quarters of the pictures will not have been published at all. Gowin is the only photographer to have been granted access to this site, which is now permanently closed, post-9/11. Other than images made by the government for geographic purposes, no other

images of this landscape exist. The book will feature a preface by photographer Robert Adams (America, b. 1937), whose photographic and written work is concerned with landscape, urbanization, and activism. It will also feature an afterword by Gowin on how he made the images, and their significance to him today."--Provided by publisher.

one's word for it, and you should not. Simply try it for yourself, and see.

The One Hundred Circle Farm
Princeton University Press

A powerful photographic survey of the impact of irrigation systems on the landscape of the United States. In *The One Hundred Circle Farm*, renowned photographer Emmet Gowin (b. 1941) presents stunning aerial images of center-pivot irrigation systems in the western and midwestern United States. This type of farming involves a method of watering crops in which equipment rotates around a centrally drilled well, creating enormous, distinct circles of irrigated land, often in the midst of dry terrain. Anyone who has taken a cross-country flight has likely seen countless

acres of these iconic symbols of industrial agriculture. Through a faithful and at once personal photographic survey, Gowin's powerful images not only bear witness to the ambitions humans wield in shaping the landscape, but also attest to how such primal elements--circles, pivots, and lines--symbolize water depletion and the fragile environment. The stark black-and-white and color compositions, one hundred in all, were created over the course of a decade. Fields resemble lost civilizations; crops gape like strange new suns. Hauntingly beautiful, the photographs highlight Earth's nourishing geology and the sweat of human labor. At the same time, they are reminders of the technology extracting unimaginable amounts of water that cannot be

replaced, and raise questions about what large-scale irrigation must answer for when the water runs out. With an afterword by anthropologist Lucas Bessire discussing the history and impact of pivot irrigation on American farming, *The One Hundred Circle Farm* stands as a poetic visual record, evidence of the tenuous connections between human enterprise and our planet's most precious resource.
