Software Architecture Document Google Code

Software architecture refers to the fundamental structures of a software system and the discipline of creating such structures and systems. Each structure comprises software elements, relations among them, and properties of both elements and relations. The architecture of a software system is a metaphor, analogous to the architecture of a building. It functions as a blueprint for the system and the developing project, laying out the tasks necessary to be executed by the design teams. Software ar

Software architecture - Wikipedia

Architecture documentation (also known as software architecture description) is a special type of

design document. In a way, architecture documents are third derivative from the code (design document being second derivative, and code documents being first). Very little in the architecture documents is specific to the code itself.

Software documentation - Wikipedia

From 2006-2016, Google Code Project Hosting offered a free collaborative development environment for open source projects. Projects hosted on Google Code remain available in the Google Code Archive.

Google Code

This document describes the architecture for all of the hardware and software components of the Cloud TPU system. Overview. Tensor Processing Units (TPUs) are Google's custom-developed application-specific integrated circuits (ASICs) used to accelerate machine learning workloads.

System Architecture | Cloud TPU | Google Cloud

The Software Architecture Document (SAD) contains the description of the system in terms of its various architectural views, in order to highlight the different aspects of it. The description makes use of the well-known 4+1 view model.
