Jacques Lacan was first of all a psychiatrist, and as a clinician, he was more concerned with what he did not know or understand than what he did. His inability to 'make do' with a poor explanation led him to consider and explore all models available to psychiatrists in the first part of the twentieth century.

A very good beginners guide in the Lacanian Psychoanalysis. The author was able to define the main concepts of the lacanian saga without losing its essential ambiguities. Being a psychiatrist and psychoanalyst, the author seems free of any kind of servitude's. A must read-even for advanced readers and/or practitioners.
