Racism in psychological treatment is still happening today! -- This subject affects everyone in our society. It is of particularl interest to psychologists, family therapists, sociologists, social workers, and members of the legal profession. -- Diversity is the topic at this year's American Psychological Association (APA) convention held in Chicago in mid-August. -- Discover why the concerns of psychologists who questioned biased research were ignored, and learn about the hardships faced by minority psychologists. The first edition of this book broke new ground. This new edition continues to address the question of racial and other biases in psychology. Multicultural Assessment

Principles, Applications, and Examples Routledge

Psychologists throughout the world are being asked to assess an increasingly diverse clientele: immigrants, refugees, second and third generations still influenced by different cultures and languages, and indigenous peoples now moving towards the mainstream. Most are ill-equipped by training and experience to

understand, assess, and subsequently treat such clients competently and ethically. Virtually all agree on the need for culture-sensitive assessment, but it has proven difficult to provide adequate services, despite good intentions and funding. Too often, clients who may have different worldview and health-illness beliefs are marginalized. For many reasons, standard assessment instruments designed, researched, and normed on a few groups in the United States--the MMPI-2, the Rorschach, and the TAT--are used as though they were universally applicable. Most busy practitioners have little time to investigate alternatives developed for use with one new group or another, focused on one issue or another, generally in a research context. In this book, Richard Dana proposes a new model of multicultural assessment practice and points directions for future training and research. He presents general, culture-specific, and step-by-step instrument-specific guidelines for the use of the standard armamentarium with different groups. Throughout, he highlights exciting new interpretive possibilities the traditional tests offer that should be regularly exploited, but emphasizes the importance of recognizing psychometric limits. Four extended examples of the use of one or several instruments with a specific group offer concrete illustrations of the model in action. *Multicultural Assessment: Principles, Applications, and Examples* constitutes an invaluable new resource for psychologists and for their students and trainees.

Alexis and Austen met on a Saturday night. Not in a bar, but instead in the emergency room where Alexis sutured a bullet wound in Austen's arm. Six months later, on the brink of falling in love, they travel to Vietnam on a bicycling tour so that Austen can show her his passion for cycling and so that he can pay his respects to the place where his father and uncle fought in the war. But as Alexis sips white wine and waits at the hotel for Austen to return from his solo ride, two men emerge from the tall grass and Austen vanishes into thin air. The only clues he leaves behind are two bright yellow energy gels dropped in the dirt road. As Alexis grapples with this bewildering loss, navigating the FBI, Austen's prickly family, and her colleagues at the hospital, Alexis uncovers a series of strange lies that force her to wonder: Where did Austen go? Why did he really bring her to Vietnam? And how much danger has he left her in? Set amid the adrenaline-fueled world of the emergency room, *The Red Lotus* is a fascinating story of those who dedicate their lives to saving people, and those who instead peddle death to the highest bidder."--

Institutional Racism in Psychiatry and Clinical Psychology

Race Matters in Mental Health *Springer*

This book examines the deep roots of racism in the mental health system. Suman Fernando weaves the histories of racial discourse and clinical practice into a narrative of power, knowledge, and black suffering in an ostensibly progressive and scientifically grounded system. Drawing on a lifetime of experience as a practicing psychiatrist, he examines how the system has shifted in response to new forms of racism which have emerged since the 1960s, highlighting the widespread pathologization of black people, the impact of Islamophobia on clinical practice after 9/11, and various struggles to reform. Engaging and accessible, this book makes a compelling case for the entrenchment of racism across all aspects of psychiatry and clinical psychology, and calls for a paradigm shift in both theory and practice.

Defining Difference

Race and Racism in the History of Psychology *Washington, DC : American Psychological Association*

This text brings together scholarship on the history of psychology and race. Throughout the history of the field, psychological discourse has been shaped by social concerns, and its discourse on race is no exception. Psychologists have promoted and fought against racism and a nuanced historical account requires analysis of both dimensions. The contributors seek to understand the relationship between the changes in the field and broader social change by mapping the changing discourse for defining difference through race. Ideas of race in the work of 19th-century and 20th-century psychologists; psychological discourse on topics such as mixed-race people; political uses of racial research; changes in textbook presentations of race and intelligence; and international perspectives on psychology and race. The contributors also examine the prominence and persistence of American research on racial differences in intelligence as well as the work of Kenneth Clark and Horace Mann Bond in combatting racism in science and society. This volume aims to increase readers' understanding of the link between racial studies and social attitudes in our time, and aims to provide a comprehensive examination of that link through history.

of the law, *The Rat on Fire* is another Higgins masterpiece and an unflinching portrait of the Boston crime world.

Teaching a Psychology of People

Resources for Gender and Sociocultural Awareness *American Psychological Association*

"Teaching a Psychology of People: Resources for Gender and Sociocultural Awareness" fills an important and much needed place in raising the consciousness of psychologists who teach undergraduates. Psychology does not have an admirable record in educating students about the importance of social-environmental factors (particularly the role of gender, race, and ethnic forces) in behavior. The history of prejudice, long part of the teaching by psychologists, is cause for shame and repentance. It is past time that psychology courses undo the damage that has been done. Since the problems of race relations are worldwide, the international origins and perspectives of this excellent and timely

book are especially advantageous. More research has been done in the United States than elsewhere on the psychology of race relations, so it is appropriate that a plurality of the chapters of this book are by American authors—a stellar group that includes leading contributors to our contemporary knowledge of the topic. Contributors from the English-speaking Commonwealth countries are next in number, followed by authors from the United Kingdom, where race-related issues have only recently become a salient concern of politics and social ethics. The editor has assigned topics to his carefully chosen author-experts not by country or region, but by matching the expertise of each author against a need for coherent analysis of the important aspects of psychology and race. *Psychology and Race* is divided into two major parts. The first half of the book looks at the interracial situation itself. The first section concentrates on the majority or dominant group, and describes the development and measurement of racial awareness and prejudice and techniques for reducing prejudice; the second section focuses on the reactions of subordinate or minority groups; and the third deals with specific aspects of interpersonal interaction—attitudes, behavior, and performance—when the people concerned are of different races. The book also looks at those areas of life where race is relevant and where psychology can help in an understanding of the situation. The scope of this volume, the distinction of its authors, and the hardheaded sense of reality it brings to the discussion of these extremely complex issues will make it an invaluable resource not only for teachers and students but also for everyone concerned in any way with this most pressing issue of our times.

Difference Matters

Communicating Social Identity, Second Edition *Waveland Press*

Allens proven ability and flare for presenting complex and oftentimes sensitive topics in nonthreatening ways carry over in the latest edition of *Difference Matters*. Her down-to-earth analysis of six social identity categories reveals how communication establishes and enacts identity and power dynamics. She provides historical overviews to show how perceptions of gender, race, social class, sexuality, ability, and age have varied throughout time and place. Allen clearly explains pertinent theoretical perspectives and illustrates those and other discussions with real-life experiences (many of which are her own). She also offers practical guidance for how to communicate difference more humanely. While many examples are from organizational contexts, readers from a wide range of backgrounds can relate to them and appreciate their relevance. This eye-opening, vibrant text, suitable for use in a variety of disciplines, motivates readers to think about valuing difference as a positive, enriching feature of society. Interactive elements such as Spotlights on Media, I.D. Checks, Tool Kits, and Reflection Matters questions awaken interest, awareness, and creative insights for change.

Born a Crime

Stories from a South African Childhood *One World*

#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, *Time*), “poignant” (*Entertainment Weekly*), “soul-nourishing” (*USA Today*) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—*Esquire* Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by *The New York Times*, *USA Today*, *San Francisco Chronicle*, *NPR*, *Esquire*, *Newsday*, and *Booklist* Trevor Noah’s unlikely path from apartheid South Africa to the desk of *The Daily Show* began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. *Born a Crime* is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother’s unconventional, unconditional love.

The Glass Castle

A Memoir *Simon and Schuster*

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

The Bell Jar

A Novel *HarperCollins*

A realistic and emotional look at a woman who falls into the grips of insanity written by the iconic American writer Sylvia Plath “It is this perfectly wrought prose and the freshness of Plath’s voice in *The Bell Jar* that make this book enduring in its appeal.” — *USA Today* *The Bell Jar* chronicles the crack-up of Esther Greenwood: brilliant, beautiful, enormously talented, and successful, but slowly going under—maybe for the last time. Sylvia Plath masterfully draws the reader into Esther’s breakdown with such intensity that Esther’s insanity becomes completely real and even rational, as probable and accessible an experience as going to the movies. Such deep penetration into the dark and harrowing corners of the psyche is an extraordinary accomplishment and has made *The Bell Jar* a haunting American classic. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.
