Political theology is more than just a synthesis of religion and the state. From the perspective of the Mosaic constitution, it concerns an ongoing entanglement and antagonism between two discrete discourses and styles of thinking—politics and theology—that should by all rights have little to do with one another.

For political thinkers and literary writers alike, it was this literary dimension of the Mosaic constitution that turned political theology into a source of political invention. Taking Mosaic narrative as a case study for anatomizing the persuasive force of religious belief, early modern writers strengthened the bond between religion and the state at the very moment that they recognized religion to be an imaginative fiction and a textual construction.
