Care planning, involvement and person-centred care This section explores two key themes that are central to care planning within the MCA framework: involvement, and keeping the wishes of the person at the centre of their care and support. It emphasises that building relationships and good communication are critical to meaningful involvement.

MCA: Care planning, involvement and person-centred care | SCIE

In person-centred practice respect for patient's values are identified as being central in order to achieve an effective process of the concept (Dewing, J. 2002; William,B. & Grant. 1998; McCormack 2001).It is important to develop a clear picture of what patient's values about their life and how they make sense of what is happening around them.

CARL ROGERS PERSON-CENTRED APPROACH

A multidisciplinary team or MDT for short is simply a diverse group of professionals working together. The MDT would aim to deliver person-centred and coordinated care and support for the person with care needs. it could include a doctor, a social worker, a physiotherapist, and/or staff from local authority, housing and voluntary organisations.

Multidisciplinary teams working for integrated care | SCIE

She founded Truity in 2012, with the goal of making quality personality tests more affordable and accessible to the general public. She has led the development of assessments based on the Big Five, Myers and Briggs' personality types, Holland Codes, DISC, and the Enneagram. She is an ENTP, a tireless brainstormer, and a wildly messy chef.

Compatibility and Myers & Briggs' Personality Types | Truity

Working Together For Change uses an 8-step process to make sure that you are taking into account the needs, wishes and aspirations of the people you support and your other stakeholders. The process collates person-centred information gathered from Person-Centred Reviews and person-centred care and support plans and helps the organise see the emerging trends in the data.
