Cosmic Trigger I

Final Secret of the Illuminati

The great modern classic of a brilliant rebel's personal exploration into the nature of consciousness Featuring a New Introduction by John Higgs "Cosmic Trigger deals with a process of deliberately induced brain change. This process is called "initiation" or "vision quest" in many traditional societies and can loosely be considered some dangerous variety of self-psychotherapy in modern terminology. I do not recommend it for everybody . . . briefly, the main thing I learned in my experiments is that "reality" is always plural and mutable." - Robert Anton Wilson from the Preface The Robert Anton Wilson Trust Authorized Hilaritas Press Edition

Masks of the Illuminati

A Novel *Dell*

This American underground classic is a rollicking cosmic mystery featuring Albert Einstein and James Joyce as the ultimate space/time detectives. One fateful evening in a suitably dark, beer-soaked Swiss rathskeller, a wild and obscure Irishman named James Joyce would become the drinking partner of an unknown physics professor called Albert Einstein. And on that same momentous night, Sir John Babcock, a terror-stricken young Englishman, would rush through the tavern door bringing a mystery that only the two most brilliant minds of the century could solve . . . or perhaps bringing only a figment of his imagination born of the paranoia of our times. An outrageous, raunchy ride through the twists and turns of mind and space, Masks of the Illuminati runs amok with all our fondest conspiracy theories to show us the truth behind the laughter . . . and the laughter in the truth. Praise for Masks of the Illuminati "I was astonished and delighted . . . Robert Anton Wilson managed to reverse every mental polarity in me, as if I had been pulled through infinity."—Philip K. Dick "[Wilson is] erudite, witty, and genuinely scary."—Publishers Weekly "A dazzling barker hawking tickets to the most thrilling tilt-a-whirls and daring loop-o-planes on the midway to a higher consciousness."—Tom Robbins "Wilson is one of the most profound, important, scientific philosophers of this century—scholarly, witty, hip, and hopeful."—Timothy Leary

Before the X-Files, before alt.conspiracy, there was Robert Anton Wilson and his legendary Illuminatus! Trilogy. Now this avatar of conspiriology, renowned for his razor wit and progressive philosophy, takes you on a fascinating, eclectic ride through what Wilson has termed the "Cultic Twilight" where conspiracy theories flourish. Everything Is Under Control covers the range of Wilson's kaleidoscopic knowledge, from John Adams to the Voronezh (former Soviet Union) UFO sighting, the Campus Crusade for Cthulhu to the Mothman prophecies, and everything in between. Quantum Psychology

How Brain Software Programs You and Your World *New Falcon Publications*

Throughout human history, thoughts, values and behaviours have been coloured by language and the prevailing view of the universe. With the advent of Quantum Mechanics, relativity, non-Euclidean geometries, non-Aristotelian logic and General Semantics, the scientific view of the world has changed dramatically from just a few decades ago. Nonetheless, human thinking is still deeply rooted in the cosmology of the middle ages. This is the book to change your way of perceiving yourself -- and the universe. Some say it's materialistic, others call it scientific and still others insist it's mystical. It is all of these -- and none. The book for the 21st Century, complete with exercises. Picks up where "Prometheus Rising" left off. Some say it's materialistic, others call it scientific and still others insist it's mystical. It is all of these -- and none.

High Weirdness

Drugs, Esoterica, and Visionary Experience in the Seventies *MIT Press*

An exploration of the emergence of a new psychedelic spirituality in the work of Philip K. Dick, Terence McKenna, and Robert Anton Wilson. A study of the spiritual provocations to be found in the work of Philip K. Dick, Terence McKenna, and Robert Anton Wilson, High Weirdness charts the emergence of a new psychedelic spirituality that arose from the American counterculture of the 1970s. These three authors changed the way millions of readers thought, dreamed, and experienced reality—but how did their writings reflect, as well as shape, the seismic cultural shifts taking place in America? In High Weirdness, Erik Davis—America's leading scholar of high strangeness—examines the published and unpublished writings of these vital, iconoclastic thinkers, as well as their own life-changing mystical experiences. Davis explores the complex lattice of the strange that flowed through America's West Coast at a time of radical technological, political, and social upheaval to present a new theory of the weird as a viable mode for a renewed engagement with reality.

Coincidence

A Head Test

This, for my money, is the most spectacular non-fiction work that Wilson ever penned, breathtakingly adventurous in both its content and its strikingly experimental form. Uncertain and demonstrably uncaring whether it's a piece of literary criticism, metaphysical discussion or anthology of diverse esoteric writings, this remarkable compendium is best seen, in the spirit of its title, as a glorious accidental dance of meaning, modernism and mythology. - Alan Moore, from his introduction to Coincidence - The Robert Anton Wilson Trust Authorized Hilaritas Press Edition

Cosmic Trigger III

My Life After Death

This, the long-awaited third volume of the Cosmic Trigger series, includes Wilson's witty and humorous observations about the widely spread (and, happily, premature) announcement of his demise. And, of course, what Wilson masterpiece would be complete without synchronicities, religious fanatics, UFOs, crop circles, paranoia, pompous scientists, secret societies, high tech, black magic, quantum physics, hoaxes (real and fake), Orson Welles, James Joyce, Carl Sagan, Madonna and The Vagina of Nuit.

Reality is what You Can Get Away with

Here are images of our culture's absurdities, injustices, violence and desires, shot at you in a machine gun like assault on your senses and intellect. A hilarious, chilling and irrevocably mind-altering, - a left brain/right-brain challenge...a conscious-raising experience filled with laughter, rage -- and truth.

Schrödinger's Cat

The Universe Next Door

The Cosmic Trigger

The Widow's Son *Roc*

Throughout history, secret societies have played a crucial role in shaping events that have created our world. Only an inner circle of power elite know the full extent of the influence of the conspiracy. It is Paris, 1772, and Sigismundo Celine knows he is destined to play an important part in this history-behind-history. The masons, the English nobil ity, the Jabobites, the Rosicrucians, the ruling clique of pre-Revolution France: these are but a few of the factions involved in the machinations and intrigue in which Sigismundo has become enmeshed. Thrown into the Bastille, shot at, assaulted by assassins, tortured, and brutally interrogated, he knows only what he is and what he must do to become the one spoken of in the old texts. But what he doesn't know could kill him: the secret powers of Maria, the Italian beauty who has become an English Lady; the Irish fisherman, Moon, who stumbles across the inner workings of an unsuspected cult; and the question they keep asking: the identity of The Widow's Son.

Cosmic Trigger III

My Life After Death

This is volume 3 in the "Cosmic Trigger" trilogy.

Wilhelm Reich in Hell

The great psychiatrist Wilhelm Reich once wrote, "No President, Academy, Court of Law, Congress or Senate on this earth has the knowledge or power to decide what will be the knowledge of tomorrow". In 1957, the government of the United States of America jailed Dr Reich and burned all of his published works. This book provides a remarkable new look at the vilification and destruction of a great man who refused to bow to Gestapo tactics.

Email to the Universe

And Other Alterations of Consciousness

Robert Anton Wilson's final book explores the "relativity of reality" in a mind-bending stream of essays. Among other topics, the master of guerrilla ontology examines The Celtic Roots Of Quantum Theory, Schrödinger's Other Cat, Joyce & Daoism, Sexual Alchemy, Left and Right: A Non-Euclidean Perspective, and Cheerful Reflections On Death And Dying. RAW's description of his run for Governor of California as the candidate for his Guns & Dope Party offers a delightfully absurd view of an improbable Maybe in terrestrial politics. "I wrote these polemics, poems, neurolinguistic experiments and assorted meanderings over a period of about 45 years," and in reflecting on this extraordinary collection of his writings, the brilliant and modest Model Agnostic adds, "I don't believe anything, but I have many suspicions . . . These suspicions have grown over 72 years, but as a rather slow and stupid fellow I do not have the Chutzpah to proclaim any of them as certitudes." "A SUPER GENIUS . . . He has written everything I was

afraid to write." - Dr. John Lilly, writer, neuroscientist and psychonaut "One of the leading thinkers of the modern age." - Barbara Marx Hubbard, Foundation for Conscious Evolution "A masterful satirist who views history as an open question." - Brad Linaweaver, Atlanta Constitution "I have learned more from Robert Anton Wilson than I have from any other source." - Comedian George Carlin

Philosophy for Life and Other Dangerous Situations

Ancient Philosophy for Modern Problems *New World Library*

When philosophy rescued him from an emotional crisis, Jules Evans became fascinated by how ideas invented over two thousand years ago can help us today. He interviewed soldiers, psychologists, gangsters, astronauts, and anarchists and discovered the ways that people are using philosophy now to build better lives. Ancient philosophy has inspired modern communities — Socratic cafés, Stoic armies, Epicurean communes — and even whole nations in the quest for the good life. This book is an invitation to a dream school with a rowdy faculty that includes twelve of the greatest philosophers from the ancient world, sharing their lessons on happiness, resilience, and much more. Lively and inspiring, this is philosophy for the street, for the workplace, for the battlefield, for love, for life.

The Chaos Protocols

Magical Techniques for Navigating the New Economic Reality *Llewellyn Worldwide*

The years since the financial crash have seen the realization dawn that the great promise of modern civilization will go unfulfilled. Study hard, work hard, buy a house, retire happy. It's all a lie, spun for the benefit of a tiny elite. The richest eighty-five people on earth have as much wealth as the poorest 3.5 billion. Each month, the numbers change but they never improve. Magical and spiritual discourse has failed to keep up with this new reality. The Chaos Protocols aims to fix that. Join Gordon White as he shows you how to use chaos magic not only to navigate these trying times, but to triumph as well. Discover how to become invincible through initiation, and wage the mind war that will keep you moving toward what you really want. From sigil magic to working with spiritual allies, The Chaos Protocols helps you act on the unwavering belief that your life should matter and you're not going to let something as trifling as the apocalypse get in the way of it. Praise: "Gordon White gives a master class on the hard economic realities and the kind of low down and dirty magic for which he has become famous. Pragmatic, sharp, and funny, The Chaos Protocols is a treasure of a book."—Peter Grey, author of Apocalyptic Witchcraft "Take two parts Magick Without Tears, a measure of The Wealth of Nations, a pinch of Ian Fleming and a dash of Noel Coward and you have this almost promiscuously readable text. Whoever said books on magick can't be fabulously entertaining as well as eminently practical has obviously not read up on their Gordon White. TechGnosis

Myth, Magic, and Mysticism in the Age of Information *North Atlantic Books*

How does our fascination with technology intersect with the religious imagination? In TechGnosis—a cult classic now updated and reissued with a new afterword—Erik Davis argues that while the realms of the digital and the spiritual may seem worlds apart, esoteric and religious impulses have in fact always permeated (and sometimes inspired) technological communication. Davis uncovers startling connections between such seemingly disparate topics as electricity and alchemy; online roleplaying games and religious and occult practices; virtual reality and gnostic mythology; programming languages and Kabbalah. The final chapters address the apocalyptic dreams that haunt technology, providing vital historical context as well as new ways to think about a future defined by the mutant intermingling of mind and machine, nightmare and fantasy.

Pigspurt's Daughter

A Mythic Dad / A Legacy of Lunacy

Director, actor, writer, Daisy Eris Campbell grew up in the lunatic world of her father, master storyteller Ken Campbell, described by The Guardian obituary as the most original and unclassifiable talent in British theatre of the past half-century. Daisy was literally conceived on the set of her father's 12-hour staging of Robert Shea and Robert Anton Wilson's epic production of Illuminatus!, in which her mother Prunella Gee played Eris, the 50-foot goddess of discord. In Pigspurt's Daughter, Daisy presents a surreal and comedic monologue that magnificently builds on the family tradition, and includes the enlightening obscure art of gastromancy leading to the absurdly entertaining necessity of Daisy coming to terms with the larger-than-life influence of her father on her life, what Daisy calls "pulling herself out from her dad's arsehole."

The New Inquisition

Irrational Rationalism and the Citadel of Science

American Cosmic

UFOs, Religion, Technology *Oxford University Press*

More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. American Cosmic examines the mechanisms at work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-year ethnographic study, D.W. Pasulka interviewed successful and influential scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like The X-Files, which can influence memory, and the believability lent to that media by the search for planets that might support life. American Cosmic explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority that offers believers answers about non-human intelligent life.
