Serial Killers

The Method and Madness of Monsters *Penguin*

This comprehensive examination into the frightening history of serial homicide documents the psychological, investigative, and cultural aspects of serial murder, from Ancient Rome to notorious contemporary cases.

Sons of Cain

A History of Serial Killers from the Stone Age to the Present *Penguin*

From the author of Serial Killers: The Method and Madness of Monsters comes an in-depth examination of sexual serial killers throughout human history, how they evolved, and why we are drawn to

their horrifying crimes. Before the term was coined in 1981, there were no "serial killers." There were only "monsters"--killers society first understood as werewolves, vampires, ghouls and witches or, later, Hitchcockian psychos. In *Sons of Cain*--a book that fills the gap between dry academic studies and sensationalized true crime--investigative historian Peter Vronsky examines our understanding of serial killing from its prehistoric anthropological evolutionary dimensions in the pre-civilization era (c. 15,000 BC) to today. Delving further back into human history and deeper into the human psyche than *Serial Killers*--Vronsky's 2004 book, which has been called the definitive history of serial murder--he focuses strictly on sexual

serial killers: thrill killers who engage in murder, rape, torture, cannibalism and necrophilia, as opposed to for-profit serial killers, including hit men, or "political" serial killers, like terrorists or genocidal murderers. These sexual serial killers differ from all other serial killers in their motives and their foundations. They are uniquely human and--as popular culture has demonstrated--uniquely fascinating.

Serial Killers

The Minds, Methods, and Mayhem of History's Most Notorious Murderers *Visible Ink Press*

Pain, torment, and torture. Cruelty, brutality, and violence. The twisted psyches, murder. and yes, even the

ability to charm people. Take a deep dive into the terrifyingly real serial murderers, spree killers, and true faces of evil! They prey on the innocent with a malicious desire to inflict damage and harm. They hunt and stalk misfortunate victims in the dark, in broad daylight, in quiet neighborhoods, and in the local woods. Their bloodthirst isn't satisfied after their first kill. Or their second. Or third. *Serial Killers: The Minds, Methods, and Mayhem of History's Most Notorious Murderers* delves into the global phenomenon of serial and spree murderers. This chilling book looks at the horrifying stories of forty malevolent killers and hundreds of innocent victims, including such notorious homicidal maniacs as John Wayne Gacy, Ted Bundy, and Jeffery Dahmer, but it also

looks at lesser-known and overlooked murderers like Herbert Baumeister, America's I-70 Strangler; Japan's "Anime Killer," Tsutomu Miyazaki; Russia's "Rostov Ripper," Andrei Chikatilo; the "Giggling Granny," Nannie Doss; and many more. It journeys to 16th-century Scotland to meet a clan of cannibals whose existence is still debated by historians today, and to the fog-shrouded alleys of Whitechapel, London, where Jack the Ripper earned his grisly namesake. Along the way, we'll meet the Dating Game Killer, the Milwaukee Cannibal, the Acid Bath Murderer, and other monsters. *Serial Killers* also asks the questions ... What makes a seemingly ordinary person stalk, torture, and murder their fellow human beings? Are serial killers born or made? What is

the difference between a serial killer and a spree killer? What were the identities of Jack the Ripper and the Zodiac Killer? Was Albert DeSalvo really the Boston Strangler? Is it possible that you could know a serial killer? Caution is advised before entering the alarming world of twisted psychos and sociopaths! With more than 120 photos and graphics, this fright-filled tome is richly illustrated. Its helpful bibliography and extensive index add to its usefulness.

Why We Love Serial Killers

The Curious Appeal of the World's

Most Savage Murderers *Skyhorse*

For decades now, serial killers have taken center stage in the news and entertainment media. The coverage of real-life murderers such as Ted Bundy and Jeffrey Dahmer has transformed them into ghoulish celebrities. Similarly, the popularity of fictional characters such as Hannibal “The Cannibal” Lecter or Dexter demonstrates just how eager the public is to be frightened by these human predators. But why is this so? Could it be that some of us have a gruesome fascination with serial killers for the same reasons we might morbidly stare at a catastrophic automobile accident? Or it is something more? In *Why We Love Serial Killers*, criminology professor Dr. Scott Bonn explores our powerful appetite for the macabre, while

also providing new and unique insights into the world of the serial killer, including those he has gained from his correspondence with two of the world’s most notorious examples, David Berkowitz (“Son of Sam”) and Dennis Rader (“Bind, Torture, Kill”). In addition, Bonn examines the criminal profiling techniques used by law enforcement professionals to identify and apprehend serial predators, he discusses the various behaviors—such as the charisma of the sociopath— that manifest themselves in serial killers, and he explains how and why these killers often become popular cultural figures. Groundbreaking in its approach, *Why We Love Serial Killers* is a compelling look at how the media, law enforcement agencies, and public perception itself

shapes and feeds the “monsters” in our midst.

Female Serial Killers

How and Why Women Become Monsters *Penguin*

In this fascinating book, Peter Vronsky exposes and investigates the phenomenon of women who kill—and the political, economic, social and sexual implications buried with each victim. How many of us are even remotely prepared to imagine our mothers, daughters, sisters or grandmothers as

fiendish killers? For centuries we have been conditioned to think of serial murderers and psychopathic predators as men—with women registering low on our paranoia radar. Perhaps that's why so many trusting husbands, lovers, family friends, and children have fallen prey to "the female monster." From history's earliest recorded cases of homicidal females to Irma Grese, the Nazi Beast of Belsen, from Britain's notorious child-slayer Myra Hindley to 'Honeymoon Killer' Martha Beck to the sensational cult of Aileen Wournos—the first female serial killer-as-celebrity—to cult killers, homicidal missionaries, and our pop-culture fascination with the sexy femme fatale, Vronsky not only challenges our ordinary standards of good and evil but also defies our basic

accepted perceptions of gender role and identity. INCLUDES PHOTOGRAPHS

The Who, What, Where, How, and Why of the World's Most Terrifying Murderers *Ballantine Books*

THE DEFINITIVE DOSSIER ON HISTORY'S MOST HEINOUS! Hollywood's make-believe maniacs like Jason, Freddy, and Hannibal Lecter can't hold a candle to real life monsters like John Wayne Gacy, Ted Bundy, Jeffrey Dahmer, and scores of others who have terrorized, tortured, and terminated their way across civilization throughout the ages. Now, from the much-acclaimed author of *Deviant*, *Deranged*, and *Depraved*, comes the ultimate resource on the

serial killer phenomenon. Rigorously researched and packed with the most terrifying, up-to-date information, this innovative and highly compelling compendium covers every aspect of multiple murderers—from psychology to cinema, fetishism to fan clubs, “trophies” to trading cards. Discover: WHO THEY ARE: Those featured include Ed Gein, the homicidal mama’s boy who inspired fiction’s most famous Psycho, Norman Bates; Angelo Buono and Kenneth Bianchi, sex-crazed killer cousins better known as the Hillside Stranglers; and the Beanes, a fifteenth-century cave-dwelling clan with an insatiable appetite for human flesh HOW THEY KILL: They shoot, stab, and strangle. Butcher, bludgeon, and burn. Drown, dismember, and devour . . . and

other methods of massacre too many and monstrous to mention here. WHY THEY DO IT: For pleasure and for profit. For celebrity and for “companionship.” For the devil and for dinner. For the thrill of it, for the hell of it, and because “such men are monsters, who live . . . beyond the frontiers of madness.” PLUS: in-depth case studies, classic killers’ nicknames, definitions of every kind of deviance and derangement, and much, much more. For more than one hundred profiles of lethal loners and killer couples, Bluebeards and black widows, cannibals and copycats—this is an indispensable, spine-tingling, eye-popping investigation into the dark hearts and mad minds of that twisted breed of human whose crimes are the most frightening . . . and fascinating.

The New York Ripper Serial Killer Richard Cottingham

RJ PARKER PUBLISHING, INC.

A shocking case of unbridled sex, sadism, prostitution, date-rape drugs, abduction, bondage, torture, sexploitation, perverted fetishes, serial killing and dismemberment of the depraved New York notorious Ripper. Historian and International Bestselling Author, Peter Vronsky, describes his brief encounter with serial killer Cottingham in a seedy New York hotel in 1979 that later inspired him to write his bestseller history "Serial Killers: The Method and Madness of Monsters". In "Times Square Torso Ripper" Vronsky explores the history of the notorious Forty-Deuce strip on 42nd Street near Times Square and

how it spawned the sadistic monster Richard Cottingham in an era before the term "serial killer" had been coined in popular culture. Renowned serial homicide expert Dr. Robert D. Keppel said of Richard Cottingham, "I kept asking myself what it was that ultimately intrigued me about the Cottingham case. Partly it was the level of sadistic torture that Cottingham acted out on his victims. He didn't kill them and desecrate their bodies; he forced them to experience pain and humiliation before he killed them. Then he desecrated their bodies." Includes 50 photos

There is little more terrifying than those who hunt, stalk and snatch their prey under the cloak of darkness. These hunters search not for animals, but for the touch, taste, and empowerment of human flesh. They are cannibals, vampires and monsters, and they walk among us. These serial killers are not mythical beasts with horns and shaggy hair. They are people living among society, going about their day to day activities until nightfall. They are the Dennis Rader's, the fathers, husbands, church going members of the community. This A-Z encyclopedia of 150 serial killers is the ideal reference book. Included are the most famous true crime serial killers, like Jeffrey Dahmer, John Wayne Gacy, and Richard Ramirez, and not to mention the women who kill,

such as Aileen Wuornos and Martha Rendell. There are also lesser known serial killers, covering many countries around the world, so the range is broad. Each of the serial killer files includes information on when and how they killed the victims, the background of each killer, or the suspects in some cases such as the Zodiac killer, their trials and punishments. For some there are chilling quotes by the killers themselves. The Big Book of Serial Killers is an easy to follow collection of information on the world's most heinous murderers.

To make the information usable for investigators, this monograph is divided into a number of different sections. There are sections that provide law enforcement with an overview of serial murder investigations, as well as sections that address the implications of the various body disposal scenarios used by serial killers and discusses how this information can be used to highlight certain offender characteristics. The study parameters and results section contains the statistical data of the study. The data was substantial enough to allow the authors to search frequencies and

common occurrences between the body disposal scenario, other behaviors at the crime scene, the criminal history of the offender, and the relationship between the offender and the victim. Included within these sections are comparisons between individual offenders based upon how many victims were killed by each serial killer. Age, marital status, pre-offense stressors, and arrest history were also compared between the offenders' first and last murder. About the Author: Robert J. Confession of a Serial Killer

The Untold Story of Dennis Rader,

the BTK Killer *University Press of New England*

In 1974, Dennis Lynn Rader stalked and murdered a family of four in Wichita, Kansas. Since adolescence, he had read about serial killers and imagined becoming one. Soon after killing the family, he murdered a young woman and then another, until he had ten victims. He named himself "B.T.K." (bind, torture, kill) and wrote notes that terrorized the city. He remained on the loose for thirty years. No one who knew him guessed his dark secret. He nearly got away with his crimes, but in 2004, he began to play risky games with the police. He made a mistake. When he was arrested, Rader's family, friends, and coworkers were shocked to discover that B.T.K. had been among them, going to work, raising his

children, and acting normal. This case stands out both for the brutal treatment of victims and for the ordinary public face that Rader, a church council president, had shown to the outside world. Through jailhouse visits, telephone calls, and written correspondence, Katherine Ramsland worked with Rader himself to analyze the layers of his psyche. Using his drawings, letters, interviews, and Rader's unique codes, she presents in meticulous detail the childhood roots and development of one man's motivation to stalk, torture, and kill. She reveals aspects of the dark motivations of this most famous of living serial killers that have never before been revealed. In this book Katherine Ramsland presents an intelligent, original, and rare glimpse

into the making of a serial killer and the potential darkness that lives next door.

Profiles of Female Serial Killers

Algora Publishing

Though the sensational title is a bit of a stretch the author reports that an estimated 50 to 75 serial killers are operating in the US at any time, of which seven or eight may be women this study provides an interesting addition to an area where criminologists have historically focused on men. HALL OF FAME / TOP 10 REVIEWER J. Chambers Gave this book 4 stars! Scroll down to read his review! Get Inside The Twisted Mind of a Serial Killer! To the untrained eye, a serial killer looks just like any other member of the public. They wear the same clothes, they eat the same food and they go about their daily lives, as any normal person would do. But there is a difference in them, which is unquantifiable; it is the deadly secret that all serial killers hide from the outside world. If they weren't able to conceal this secret so well, many cold-blooded killings could have been prevented. So if we could see deep

within their souls and spot the things that made them the way they are, maybe we could stop them from becoming serial killers in the first place. With this book, I aim to get inside the mind of a serial killer, to show what makes them tick and to see if there are any personality traits that are the same across the wide range of different serial killers there have been through time. Finally, I will take a look at the top 5 serial killer personalities and 10 of the most famous serial killers in history. This will give us an insight into the mind of a serial killer and a better understanding of the things that turn people into cold and calculating killing machines... Do you find Serial Killers interesting? Would you like to get a glimpse inside the mind of a serial Killer? Then Get this Book

Serial Violence

Analysis of Modus Operandi and Signature Characteristics of Killers

CRC Press

Linking the murders of an alleged serial killer to successfully present a case in court involves a specific methodology that has been scrutinized by the judicial system but is largely absent in the current literature. *Serial Violence: Analysis of Modus Operandi and Signature Characteristics of Killers* fully explains the process of finding the nexus between one violent crime and another for the purpose of pursuing the same offender at trial. Examines real cases of

some of the world's most notorious serial killers. Written by renowned experts, this book focuses on analyzing crimes of violence to unveil common characteristics that might prove useful in the identification, apprehension, and conviction of murderers. It begins by detailing the historical origins of modus operandi as an investigative tool. It examines murderous ritualistic behavior in a variety of cases, including William Heirens, Harvey Glatman, Morris Frampton, and Jack the Ripper. Later chapters discuss serial murders accompanied by burglary, torture, picquerism, sexual violence, sexual degradation, and a host of other behaviors. Includes color photographs of actual crime scenes. Containing numerous color photos, this volume

includes useful information for expert witnesses and portions of transcripts of original testimony. The scintillating detail and rigorous analysis presented in this volume enables those charged with solving these violent crimes to discern the types of modus operandi and ritualistic behaviors that can be linked to the same offender, helping law enforcement bring these dangerous offenders to justice. About the Authors Bob Keppel served on the King County homicide task force that investigated the infamous Ted Bundy and has been an expert witness on scores of serial killer signature profile cases across the United States. Along with coauthor William Birnes, Dr. Keppel worked on a United States Department of Justice grant to evaluate how local police homicide units

use computer database technology to track serial killer and sexual offender cases by cross-referencing offender psychological signatures.

List Of 10

The True Story of Serial Killer Joseph Naso

"Gritty. True. Compulsively readable. This is his best book."-- Gregg Olsen, NY Times Best Selling Author A narcissistic professional photographer lived a dangerous double life as a serial killer. He'd focus his rage on prostitutes mostly. It wasn't uncommon for him to bring them home then try to explain why they were there to his wife. Sexual urges met, either via rape or after paying for kinky sex, the killer would strangle his

victims and dump their bodies in places he knew the police would eventually find them. The evil murderer needed the world to know that he was smarter than the police and women meant nothing to him but a necessary sexual inconvenience. Then, by a stroke of chance and aggressive police work, the wheels of justice stumbled upon a lead. It was nothing more than a lined sheet of paper that read, "List of 10," but shortly after its discovery, a task force was created and a serial killer was nabbed. This book is about the victims he left behind, not the person who took their lives. I will never condone such actions, nor will I try to rationalize his behavior. He will go to the grave, hopefully sooner rather than later, knowing the identity of four women from his fabled List of 10.

It's his sick way of showing people he's still in charge. His name is Joseph Naso, and this book will grip you from the beginning and won't let you go until the final word. EDITORIAL REVIEWS "Current law enforcement officer C.L. Swinney has put years of research into the bizarre case of serial killer Joseph Naso -- the California Alphabet Killer -- who had been murdering women since the 1970s but was only brought to justice in 2011. Swinney's "List of 10" is compellingly written in the tradition of classic hard-boiled true crime writing with the insights of a cop." - Peter Vronsky: Author of "Serial Killers: The Method and Madness of Monsters" AND "Times Square Torso Ripper" "Like the great Joseph Wambaugh, Chris Swinney writes with the kind of authenticity that comes

from having worn the uniform of a law enforcement officer. Gritty. True. Compulsively readable. This is his best book." - Gregg Olsen: NY Times Best Selling Author "Chris Swinney writes with a cop's eye for the telling detail. He's the real deal." - Steve Jackson, NY Times Bestselling Author of "A Clockwork Murder"

Talking with Serial Killers

The Most Evil People in the World Tell Their Own Stories *Kings Road Publishing*

An investigative criminologist, Christopher Berry-Dee is a man who talks to serial killers. Their pursuit of horror and violence is described in their own words, transcribed from audio and

videotape interviews conducted deep inside some of the toughest prisons in the world. Berry-Dee describes the circumstances of his meetings with some of the world's most evil men and reproduces, verbatim, their very words as they describe their crimes and discuss their remorse -- or lack of it. This work offers a penetrating insight into the workings of the criminal mind.

Serial Killers & Mass Murderers

Profiles of the World's Most Barbaric Criminals *Ulysses Press*

Even the world's most depraved murderers were once only known as somebody's neighbor or someone's son. What turned these people into killers? And why is everyone so fascinated with

them? In one chilling chapter after another, this book profiles a terrifying succession of homicidal maniacs. It takes readers inside the minds of the people who committed the world's most notorious and horrendous crimes. Are they inhuman beasts beyond compassion, or human beings just like us who simply crossed a line and could not find a way back? Each story stands alone as a frightening tale. Drawn together in this one volume, Serial Killers and Mass Murderers present a fascinating investigation of the dark side.

Parents Who Killed Their Children

Filicide (Large Print) *CreateSpace*

What can possibly incite parents to kill their own children? This collection of

"Filicidal Killers" provides a fast-paced, gripping overview of how things can go horribly wrong in once-loving families. This book depicts ten of the most notorious and horrific cases of homicidal parental units out of control. People like--Andrea Yates, Diane Downs, Susan Smith, and Jeffrey MacDonald--who received a great deal of media attention. The author explores the reasons; from addiction to postpartum psychosis, insanity to altruism. Each story is detailed with background information on the parents, the murder scenes, trials, sentencing and aftermath. PUBLISHERS WEEKLY - "{A}" valuable resource and reference book for Criminologists and Psychologists on the fraught subject of maternal filicide, supported with ten case studies. A clear-eyed view on the

most heartbreaking of crimes." CASES INCLUDE: Andrea Yates Darlie Routier Susan Eubanks Lianne Smith Alan Bristol Jeffrey MacDonald Deanna Laney Susan Smith Tonya Thomas Diane Downs "Acclaimed true crime author, RJ Parker, has a knack for collecting high-profile cases under specific themes. This collection about parents who kill their children provides a fast-paced, gripping overview of how things can go horribly wrong in once-loving families. From Andrea Yates to Jeffrey MacDonald to Susan Smith, Parker reports on the stunning case details and suggests reasons why the parental bond can get so twisted. The updates at the end of each chapter add a lot, since popular media rarely follows up. An important reference for true crime readers." - Dr.

Katherine Ramsland, Ph.D., bestselling author of "The Mind of a Murderer" and "The Ivy League Killer." "Is there anything more reprehensible than filicide--that is, the intended act of a parent killing his or her own child? In "Parents Who Killed Their Children," the award-winning true crime author RJ Parker shines a powerful light on this dark and sordid phenomenon. First, Parker offers a number of possible psychological and environmental causes (or at least correlates) of filicide. Then he presents ten shocking, real life case histories of parents who murdered their children. The result is a book that is bound to make you rethink the absolute sanctity of motherhood and reflect on why some mothers do indeed "eat their young." This is a powerful read and

another hard-hitting, compelling entry by RJ Parker." - Dr. Scott Bonn, Ph.D, criminologist, professor and author of the forthcoming "Why We Love Serial Killers" October 2014 from Skyhorse Press. "The only thing more shocking than female serial killers is when mom or dad kills their own children. RJ Parker has collected some of the most notorious and horrific cases of homicidal parental units out of control. Shocking and gripping." - Dr. Peter Vronsky Ph.D., investigative criminal justice historian and filmmaker. The author of the bestselling history of serial murder, "Serial Killers: The Method and Madness of Monsters" and "Female Serial Killers: How and Why Women Become Monsters." "The author writes the before, during, and after, like no other.

I'm an avid reader, but selective, and will read everything he is associated with." - Lori Smith NOTEWORTHY This book has been selected by several Universities in their upcoming courses in Criminology, Sociology and Forensic Psychology, including, the University of Utah and Penn State University. Parker has written 14 true crime books, available in eBook, trade paperback and audiobook editions and have sold in over 80 countries. He holds Certifications in Serial Crime and Criminal Profiling.

Murders and Acquisitions

Representations of the Serial Killer in Popular Culture *A&C Black*

The 'serial killer' has become increasingly prevalent in popular culture

since the term was coined by Robert Ressler at the FBI in the mid-1970s. *Murders and Acquisitions* explores the social and political implications of this cultural figure. The collection argues that the often blood-chilling representations of the serial killer and serial killing offered in TV series, films, novels and fan productions function to address contemporary concerns and preoccupations. Focusing on well-known popular culture texts, such as *The Wire*, *Kiss the Girls*, *Monster*, the *Saw* series, *American Psycho*, *The Strangers*, *CSI* and *Dexter*, this eclectic anthology engages with a broad spectrum of cultural theory and performs critical textual analysis to examine the sophisticated ways the serial killer is deployed to mediate and/or work through cultural anxieties

and fears.

Survived by One

The Life and Mind of a Family Mass Murderer *SIU Press*

On November 8, 1985, 18-year-old Tom Odle brutally murdered his parents and three siblings in the small southern Illinois town of Mount Vernon, sending shockwaves throughout the nation. The murder of the Odle family remains one of the most horrific family mass murders in U.S. history. Odle was sentenced to death and, after seventeen years on death row, expected a lethal injection to end his life. However, Illinois governor George Ryan's moratorium on the death penalty in 2000, and later commutation of all death sentences in 2003, changed

Odle's sentence to natural life. The commutation of his death sentence was an epiphany for Odle. Prior to the commutation of his death sentence, Odle lived in denial, repressing any feelings about his family and his horrible crime. Following the commutation and the removal of the weight of eventual execution associated with his death sentence, he was confronted with an unfamiliar reality. A future. As a result, he realized that he needed to understand why he murdered his family. He reached out to Dr. Robert Hanlon, a neuropsychologist who had examined him in the past. Dr. Hanlon engaged Odle in a therapeutic process of introspection and self-reflection, which became the basis of their collaboration

on this book. Hanlon tells a gripping story of Odle's life as an abused child, the life experiences that formed his personality, and his tragic homicidal escalation to mass murder, seamlessly weaving into the narrative Odle's unadorned reflections of his childhood, finding a new family on death row, and his belief in the powers of redemption. As our nation attempts to understand the continual mass murders occurring in the U.S., *Survived by One* sheds some light on the psychological aspects of why and how such acts of extreme carnage may occur. However, *Survived by One* offers a never-been-told perspective from the mass murderer himself, as he searches for the answers concurrently being asked by the nation and the world.
