Chapter 4: Answers to Questions and Problems

Managerial economics is concerned with the application of economic theory and methods of decision sciences to analyse

decision-making problems faced by business firms. The first and most important problem faced by a business firm is the choice of a product to be produced or service to be provided. The second important problem dealt with in managerial economics is to decide by a firm about price and output of the product so as to maximise profits or to attain some other desired goal.
