On Judgment Day *Lindhardt og Ringhof*

The supreme day is the holiest day. It is when we are near death and we must face what we have done with our life. The noblest face it without fear, others tremble. However, when it comes, we still have much to learn about life. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children’s literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

Happiness for People Who Can't Stand Positive Thinking *Farrar, Straus and Giroux*

Self-help books don't seem to work. Few of the many advantages of modern life seem capable of lifting our collective mood. Wealth—even if you can get it—doesn't necessarily lead to happiness. Romance, family life, and work often bring as much stress as joy. We can't even agree on what "happiness" means. So are we engaged in a futile pursuit? Or are we just going about it the wrong way? Looking both east and west, in bulletins from the past and from far afield, Oliver Burkeman introduces us to an unusual group of people who share a single, surprising way of thinking about life. Whether experimental psychologists, terrorism experts, Buddhists, hardheaded business consultants, Greek philosophers, or modern-day gurus, they argue that in our personal lives, and in society at large, it's our constant effort to be happy that is making us miserable. And that there is an alternative path to happiness and success that involves embracing failure, pessimism, insecurity, and uncertainty—the very things we spend our lives trying to avoid. Thought-provoking, counterintuitive, and ultimately uplifting, The Antidote is the intelligent person's guide to understanding the much-misunderstood idea of happiness.

Timeless Indian Wisdom for Business Leaders *Berrett-Koehler Publishers*

The Higher Reality of Business The health of business is inextricably linked with the health of humanity and nature. But our current approaches to leadership treat business as entirely separate—and the result has been recurring economic, environmental, and human crises. In this extraordinary book, Ram Nidumolu uses evocative parables and stories from the ancient Indian wisdom texts, the Upanishads, to introduce Being-centered leadership. This new kind of leadership is anchored in the concept of Being, the fundamental reality that underlies all phenomena. Being-centered leaders are guided by an innate sense of interconnection—the good of the whole becomes an integral part of their decisions and actions. Using the experiences of over twenty trailblazing CEOs, as well as those from his own life, Nidumolu describes a four-stage road map every aspiring leader can use to reconnect business to the wider world—to the benefit of all.

Toward a Positive Psychology of Self-Esteem, Third Edition *Springer Publishing Company*

Dr. Mruk has produced a highly readable new edition of his original work on an often misunderstood psychological construct--self-esteem. Mruk's view that self-esteem is a critically important influence on psychological adjustment and quality of life is now an accepted tenet in personality theory. Lack of self-esteem is frequently a precursor to depression, suicidal behavior, and other personality disorders. Nonetheless, the clinical diagnosis of self-esteem problems has lacked the basis of an overarching theory. Dr. Mruk's comprehensive analysis distills the literature on self-esteem into practical and reliable treatment methods for both clinicians and researchers. The new edition contains updated research and current terms, and addresses the self-esteem "backlash." He concludes with worksheets and detailed guidelines for conducting self-esteem building workshops. Added features include: Major theories of self-esteem Chapter on the new positive psychology 150 new references Dr. Mruk has developed a writing style that is successfully oriented toward both academic and clinical audiences in the areas of counseling, education, nursing, psychology, and social work, thus providing much-needed information for teachers, students, and practicing clinicians in a clear, concise way.

As Harvard professor Amy Cuddy's revolutionary book reveals, we don't need to embark on a grand spiritual quest or complete an inner transformation to harness the power of presence. Instead, we need to nudge ourselves, moment by moment, by tweaking our body language, behavior, and mind-set in our day-to-day lives. Amy Cuddy has galvanized tens of millions of viewers around the world with her TED talk about "power poses." Now she presents the enthralling science underlying these and many other fascinating body-mind effects, and teaches us how to use simple techniques to liberate ourselves from fear in high-pressure moments, perform at our best, and connect with and empower others to do the same.
