Pediatric Palliative Care: Global Perspectives | Request PDF

Pediatric Palliative Care: Global Perspectives. Palliative care has long been a model of care that focuses on both patients with life-limiting illnesses and their family members. This is especially true in pediatrics where parents, siblings, grandparents and others are affected by a child's illness. Yet, provision of pediatric palliative

care around the world is scant.

Pediatric Palliative Care: Global Perspectives eBook ...

Palliative care is an approach to alleviating physical, psychosocial, and spiritual suffering that is often experienced with incurable health conditions. However, there are differences throughout the world in the type of palliative care people want and can access. Most of the people who lack access to palliative care live in low- and middle-income countries and are children.

When applicable, a brief history of pediatric palliative care is included noting especially policy changes and legislative acts. For example, the chapter on Poland describes how pediatric palliative care grew from the Catholic church into a national movement spearheaded by several health care workers.
