Papal Sin hits the mark...mostly. It makes the convincing case that far too often (and for most of the history of the Church), popes and the church authority have been all too willing to look away from the truth, simply for the benefit of power (personal and structural), "reputation" protection, and advancement of personal individual agendas (even those that are well intentioned).

the Introduction

**Papal Sin: Structures of Deceit - eBook: Garry Wills ...**

The subtitle of this work tells it all: "[Papal] Structures of Deceit." Like his companion work on Augustine, Wills treats the modern Papacy with a

concise, cogent, indictment: The modern Papacy has lost the ability to tell the truth in all matters, large and small, trivial and dogmatic.

**Amazon.ca:Customer reviews: Papal Sin: Structures of Deceit**

But the evils in Papal Sin: Structures of Deceit are quite different. Chief among them, Wills tells us, is the simple sin of lying-not out of avarice (though financial scandals, like the 1980s collapse of Milan's Banco Ambrosiano, which handled the pope's private accounts, still occur), but out of a bizarre need to deny the modern reality that is closing in all around the diminishing Roman priesthood.
