The NHS Intensive Support Team (NHS IST) have produced a guide to the management of elective care pathways designed to explain the essential elements of a Referral to Treatment (RTT) pathway; from pre-referral advice and outpatients, all the way through diagnostics to patient admissions.

The guide also covers a number of key areas which support the operational delivery of a good RTT pathway, including demand and capacity planning, elective access policies, performance management and reporting.

FREEDOM JUSTICE AND MINISTRY OF HEALTH GUIDELINES.
FOREWORD The policy of referring patients

from primary care levels to the appropriate level for continuous provision of health care in the country has been identified as an integral component of the health delivery system. There is the need, therefore, to ensure a well structured and efficient referral system that will not only stand the test of time but also be attractive to patients in particular and the public in general.
