While various attempts have been made to map the extent of the existing cultural policy information infrastructure in the United States, no structured attempt has been made to conduct a cross-national analysis intended to draw on the more highly developed models already in operation elsewhere. A cross-national comparative look provides valuable information on how this infrastructure has evolved, on what has succeeded and what has had less success, on what is sustainable and what is not, and ...

Ginman defines Information Culture as the culture in which the transformation of intellectual resources is maintained alongside the transformation of material resources. Information Culture is the environment where knowledge is produced with social intelligence, social interaction and work knowledge. Multinational organizations (MNOs) are characterized by their engagement in global markets (Umanath & Campbell, 1994).
