The Economic History Of World

The economic history of the world is a record of the economic activities (i.e. the production, distribution and consumption of goods and services) of all humans, spanning both recorded history and evidenced prehistory.

Economic history of the world - Wikipedia

The basic outline of world economic history is surprisingly simple. Indeed it can be summarized in one diagram: figure 1.1. Before 1800 income per person —the food, clothing, heat, light, and housing available per head—varied across societies and epochs. But there was no upward trend. A simple but powerful mechanism explained in this book, the
