In many ways, a twin-clutch semi-automatic offers the best of both worlds, allowing you to take manual control when you want. while letting the electronics do all the work when you're taking it...

Manual vs automatic gearboxes - which should you choose ...

Pros. Greater control: A manual gearbox gives you more control over the car as you alone choose which gear to use. This

can be particularly beneficial in wintry conditions. More speed: Some automatics can be slow and cumbersome, although many are now fitted with dual-clutch technology to make them quicker.

Automatic vs manual cars: which is better? | RAC Drive

In simple terms, what looks like an automatic gear lever is attached to a conventional manual gearbox with the clutch operated electronically rather than by the driver's left foot. These are quite popular because they're light and much cheaper than a traditional automatic.

As far as twisties or some light track use, I would take manual any day over auto.....good manual gearbox, like current gen BMW boxes or my previous S2000 box was amazing.

Is the BMW M3/M4 better without a manual gearbox?

Sure, a manual gearbox offers more control under those conditions when you need it, but an automatic gives you the flexibility of letting the car decide the shift times when necessary—like during your morning commute. But with BMW's Steptronic automatic transmission,

there's no need to choose. That's because this "manu-matic" gearbox offers the best of both worlds; a manual-shifting experience when you want it, and a multi-drive mode automatic when the situation calls for it.

BMW Steptronic Transmission—Best of Both Worlds | BMW Blog

With an automatic transmission, the car does the shifting for you. With a manual (or stick shift), you're in control. Driving a stick shift means knowing when to shift the gear so your engine remains protected, which seems like an unwelcome responsibility to some people. Still, driving a stick shift can be more fun.
