Beyond the Hype of Big Data | CIO

While Big Data is clearly a key business priority that is expected to add significant value to organisations, it has also become difficult to get beyond the hype. At Northdoor, we believe that Big Data is simply a natural progression of how organisations access, analyse and use information for the running of their businesses.

Big Data - Moving Beyond the Hype

First, a quick primer on Big Data: This much-used jargon refers to a set of technologies designed for working with large volumes of data beyond those of traditional database management systems. These inventions stem from the needs, in the early part of the last decade, of Internet companies like Google, Yahoo and Facebook to manage user data and systems at a scale the industry hadn’t previously designed for.
