Basic ¶. Basic. These
rig types are used to
generate simple single-
bone features, and for
custom rigging done
directly in the meta-rig.
The single-bone rig
types must be applied
separately to every
bone even within a
connected chain, and
can have connected

children controlled by a different rig type. This is unlike chain-based rig types that usually consume the whole connected chain.

Basic — Blender Manual

Working in minute units, 2 hours=120 minutes. Hence 25 minutes is 25/120ths of 2 hours. By cancelling, $25/120 = 5/24$ Expressing 5/24 as a decimal fraction gives 0.2083. Multiplying by 100 to convert the decimal fraction to a percentage gives: 0.2083 $\times 100 = 20.83\%$. Thus 25 minutes is 21% of 2 hours, correct to the nearest 1%.

RIG MATH REFRESHER Well Control Training Course

In abstract algebra, a semiring is an algebraic structure similar to a ring, but without the requirement that each element must have an additive inverse. The term rig is also used occasionally—this originated as a joke, suggesting that rigs are rings without negative elements, similar to using rng to mean a ring without a multiplicative identity. Tropical semirings are an active area of research, linking algebraic varieties with piecewise linear structures. Algebraic structures Group-like ...
