PROJECT PROFILE ON ALUMINIUM FABRICATION

Together they provide a simple but useful guide to whether the profile is worth developing into a detailed project proposal. If a profile produces a positive result for each of these tests, and if it also responds to the priorities and needs of the applicants, then the project is probably worth developing from

the profile to the full project stage.

A large project that will be executed in at least three locations will have a very different profile from a small project that will be executed in one location. These two attributes—size and location—provide information about the project that will enable a manager in the parent organization to assign a project manager with the appropriate knowledge and skills.
