The Making of The Wind in the Willows

Making of

The Wind in the Willows has its origins in the bedtime stories that Kenneth Grahame told to his son Alastair and then continued in letters (now held in the Bodleian Library) while he was on holiday. But the book developed into something much more sophisticated than this, as Peter Hunt shows. He identifies

the colleagues and friends on whom Grahame is thought to have based the characters of Mole, Rat, Badger and Toad, and explores the literary genres of boating, caravanning and motoring books on which the author drew. He also recounts the extraordinary correspondence surrounding the book's first publication and the influence of two determined women - Elspeth Grahame and publisher's agent Constance Smedley - who helped turn the book into the classic for children we know and love today, when it was almost entirely intended for adults. Generously illustrated with original drawings, fan letters (including one from President Roosevelt)

and archival material, this book explores the mysteries surrounding one of the most successful works of children's literature ever published.

Epic Echoes in The Wind in the Willows

Routledge

This book explores Grahame's engagements with classical antiquity in *The Wind in the Willows*, including ancient epic, parody (*Batrachomyomachia*), and pastoral imagery. Irby demonstrates how

subtle echoes – such as the structure into 12 books, arming scenes, epic catalogues, anabases and katabases, lying tales, Toad's

"cleverness"—cumulatively suggest a link between *The Wind in the Willows* and classical literature. This study offers the first sustained treatment of classical allusions in *The Wind in the Willows*, considering the entire novel, not isolated scenes, building on existing scholarship to yield an interpretation through the lens of classical literature and its reception in Victorian and Edwardian England. This volume will provide a unique resource for students and scholars of classical reception and literature, as well as

comparative literature, English literature, children's literature, gender studies, and Grahame's writing.

This list has been built up week by week in The Observer since September 2013, and selected by writer and Observer editor Robert McCrum. With a short critique on each book, this is a real delight for

literary lovers.

The Wind In The Willows

The Wind in the Willows, book of linked animal tales by British writer Kenneth Grahame that began as a series of bedtime stories for his son and was published in 1908. The beautifully written work, with its evocative descriptions of the countryside interspersed with exciting adventures, became a classic of English children's literature. The tales relate the adventures of several animal friends and neighbours in the English countryside—primarily Mole, Rat, Toad, and Badger.
