Each question can acquire the answer from a single fact of form (subject, predicate, object) in Freebase. This task, simple question answering (SimpleQA), can be addressed via a two-step pipeline: entity linking and fact selection. In fact selection, we match the subject entity in a fact candidate with the entity mention in the question by a character-level

convolutionalneuralnetwork(char-CNN), and match the predicate in that fact with the question by a word-level CNN (word-CNN).
