Guidelines for the Management of Severe Traumatic Brain Injury

The terms mild brain injury, mild traumatic brain injury (mTBI), mild head injury (MHI), and concussion may be used interchangeably; although the term "concussion" is still used in sports literature as interchangeable with "MHI" or "mTBI", the general clinical medical literature uses "mTBI" instead, since a 2003 CDC report outlined it as an important strategy.

Concussion - Wikipedia

A traumatic brain injury (TBI), also known as an intracranial injury, is an injury to the brain caused by an external force. TBI can be classified based on severity (ranging from mild traumatic brain injury [mTBI/concussion] to severe traumatic brain injury), mechanism (closed or penetrating head injury), or other features (e.g., occurring in a specific location or over a widespread area).

Traumatic brain injury - Wikipedia

Trauma centers provide an expert, coordinated team approach to traumatic brain injury care. If the patient is taken to a hospital that is not a trauma center, ask for the nearest trauma center and request a possible transfer.

Treatment Centers – Traumatic Brain Injury
