Talking About Treatment Recommendations For

Talking therapies are psychological treatments for mental and emotional problems like stress, anxiety and depression. There are lots of different types of talking therapy, but they all involve working with a trained therapist. This may be one-to-one, in a group, online, over the phone, with your family, or with your partner.

Types of talking therapies - NHS

Medication isn't usually recommended for treating phobias, because talking therapies are usually effective and don't have any side effects. However, medication is sometimes prescribed on a short-term basis to treat the effects of phobias, such as anxiety. There are 3 types of medication recommended for treating anxiety: antidepressants; tranquillisers
