The Case For Stoves

Danieli Corus Hot Blast Stoves

Danieli Corus hot blast stoves have a proven service life of over 30 years, surpassing the lifetime capability of most blast furnace designs. This makes selection of this hot blast stove technology a once-in-a-lifetime decision. The hot blast systems used by the global steel industry operate according to a regenerative heat-exchange process. The cyclic nature of this process imposes highly dynamic conditions on the refractory design.
