The publication provides step-by-step descriptions of the various procedures for operating the Citroen, as well as comprehensive repair and maintenance of these vehicles. The operations on diagnostics of malfunctions in aggregates and components of machines, repair and adjustment of elements of systems and units, in particular power units (including fuel injection system, gas distribution system, valve lift mechanism (MIVEC), ignition, charging and start-up systems) , elements of manual ...

Citroen Service Workshop Manuals Owners manual PDF Free ...

To keep your car running at peak efficiency, you need to have it serviced regularly by a professional mechanic. Make sure that all parts and consumables used (e.g. oil, air filters, tyres) are guaranteed, recommended and tested by Citroën and each component used in producing your vehicle met a full list of specifications. Engine oil, for example, provides lubrication but also contributes to engine efficiency.
