Momentum and Impulse: Definition, Theorem and ... - Study.com

This GCSE Physics quiz on forces looks at momentum. All moving objects possess the property of momentum which is the tendency to keep moving in the same direction. The more momentum an object has, the more difficult it is to stop and the more difficult it is to change its direction. Momentum is a vector quantity ~ it has direction as well as a size. To change the momentum of an object requires the application of a force.
