Mathematical model of a separately excited DC motor powered by a solar array using external starter resistances Article (PDF Available) · November 2014 with 1,718 Reads

How we measure 'reads'

(PDF) Mathematical model of a separately excited DC motor ...

A mathematical model is a description of a system using mathematical concepts and language. The process of developing a mathematical model is termed mathematical modeling. Mathematical models are used in the natural sciences (such as physics, biology, earth science, chemistry) and engineering disciplines (such as computer science, electrical engineering), as well as in non-physical systems such as the social sciences (such as economics, psychology, sociology, political science).
