Starccm+ userguide -- CFD Online Discussion Forums

Introduction. STAR-CCM+ was designed as a client-server application where the client is the graphical user interface (GUI) and the server performs the work of solving the model problem. Many CFD problems of engineering interest require high performance computing (HPC) clusters for their solution. The client-server architecture of STAR-CCM+ allows the client to be located on a local computer while the server can be running on a remote HPC cluster.
