Boethius was an eminent public figure under the Gothic emperor Theodoric, and an exceptional Greek scholar. When he became involved in a conspiracy and was imprisoned in Pavia, it was to the Greek philosophers that he turned. THE CONSOLATION was written in the period leading up to his brutal execution. It is a dialogue of alternating prose and verse between the ailing prisoner and his 'nurse' Philosophy. Her instruction on the nature of fortune and happiness, good and evil, fate and free will, restore his health and bring him to enlightenment. THE CONSOLATION was extremely popular throughout medieval Europe and his ideas were influential on the thought of Chaucer and Dante.

Composed while its author was imprisoned, this book remains one of Western literature’s most eloquent meditations on the transitory nature of earthly belongings, and the superiority of things of the mind. Slavitt’s translation captures the energy and passion of the original. And in an introduction intended for the general reader, Seth Lerer places Boethius’s life and achievement in context.

2011 Reprint of 1962 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. "Consolation of Philosophy" is a philosophical work by Boethius, written around the year 524. It has been described as the single most important and influential work in the West on Medieval and early Renaissance Christianity, and is also the last great Western work that can be called Classical. It was written during a one-year imprisonment Boethius served while awaiting trial for the crime of treason. This experience inspired the text, which reflects on how evil can exist in a world governed by God, and how happiness can be attainable amidst fickle fortune, while also considering the nature of happiness and God. Boethius writes the book as a conversation between himself and Lady Philosophy. She consoles Boethius by discussing the transitory nature of fame and wealth, and the ultimate superiority of things of the mind, which she calls the "one true good." She contends that happiness comes from within, and that one's virtue is all that one truly has, because it is not imperiled by the vicissitudes of fortune.

From the author of How Proust Can Change Your Life, a delightful, truly consoling work that proves that philosophy can be a supreme source of help for our most painful everyday problems. Perhaps only Alain de Botton could uncover practical wisdom in the writings of some of the greatest thinkers of all time. But uncover he does, and the result is an unexpected book of both solace and humor. Dividing his work into six sections -- each highlighting a different psychic ailment and the appropriate philosopher -- de Botton offers consolation for unpopularity from Socrates, for not having enough money from Epicurus, for frustration from Seneca, for inadequacy from Montaigne, and for a broken heart from Schopenhauer (the darkest of thinkers and yet, paradoxically, the most cheering). Consolation for envy -- and, of course, the final word on consolation -- comes from Nietzsche: "Not everything which makes us feel better is good for us." This wonderfully engaging book will, however, make us feel better in a good way, with equal measures of wit and wisdom.

Boethius finally has a translator equal to his prodigious talents and his manifold vision." --Joseph Pucci, Brown University "This book offers a splendid new translation of the Consolatio Philosophiae that makes the philosophy of the text accessible to both the beginning student and to the Latin scholar. Any student interested in the transition in late antiquity from the pagan to the Christian worlds should own this volume." --Victoria Jordan, The Classical Outlook

The Consolation of Boethius as Poetic Liturgy *OUP Oxford*

Throughout Antiquity and the Middle Ages, literature was read with the ear as much as with the eye: silent reading was the exception; audible reading, the norm. This highly original book shows that Boethius's Consolation of Philosophy - one of the most widely-read texts in Western history - aims to affect the listener through the designs of its rhythmic sound. Stephen Blackwood argues that the Consolation's metres are arranged in patterns that have a therapeutic and liturgical purpose: as a bodily mediation of the text's consolation, these rhythmic patterns enable the listener to discern the eternal in the motion of time. The Consolation of Boethius as Poetic Liturgy vividly explores how in this acoustic encounter with the text philosophy becomes a lived reality, and reading a kind of prayer.

Written while Boethius was in prison awaiting execution, the work consists of a dialogue in alternating prose and verse between the author, lamenting his own sorrows, and a majestic woman, who is the incarnation of his guardian Philosophy. The woman develops a modified form of Neo-Platonism and Stoicism, demonstrating the unreality of earthly fortunes, then proving that the highest good and the highest happiness are in God, and reconciling the apparent contradictions concerning the existence of everything.

Boethius’ Consolation of Philosophy as a Product of Late Antiquity *A&C Black*

In the last fifty years the field of Late Antiquity has advanced significantly. Today we have a picture of this period that is more precise and accurate than before. However, the study of one of the most significant texts of this age, Boethius' Consolation of Philosophy, has not benefited enough from these advances in scholarship. Antonio Donato aims to fill this gap by investigating how the study of the Consolation can profit from the knowledge of Boethius' cultural, political and social background that is available today. The book focuses on three topics: Boethius' social/political background, his notion of philosophy and its sources, and his understanding of the relation between Christianity and classical culture. These topics deal with issues that are of crucial importance for the exegesis of the Consolation. The study of Boethius' social/political background allows us to gain a better understanding of the identity of the character Boethius and to recognize his role in the Consolation. Examination of the possible sources of Boethius' notion of philosophy and of their influence on the Consolation offers valuable instruments to evaluate the role of the text's philosophical discussions and their relation to its literary features. Finally, the long-standing problem of the lack of overt Christian elements in the Consolation can be enlightened by considering how Boethius relies on a peculiar understanding of philosophy's goal and its relation to Christianity that was common among some of his predecessors and contemporaries.

Boethius, of the noble Anicia family, entered public life at a young age and was already a senator by the age of 25. Boethius himself was consul in 510 in the kingdom of the Ostrogoths.

In 522 he saw his two sons become consuls. Boethius was imprisoned and eventually executed by King Theodoric the Great, who suspected him of conspiring with the Eastern Roman Empire. Literary Strategies of Resistance from Boethius to Primo Levi *Princeton University Press*

Boethius wrote The Consolation of Philosophy as a prisoner condemned to death for treason, circumstances that are reflected in the themes and concerns of its evocative poetry and dialogue between the prisoner and his mentor, Lady Philosophy. This classic philosophical statement of late antiquity has had an enduring influence on Western thought. It is also the earliest example of what Rivkah Zim identifies as a distinctive and vitally important medium of literary resistance: writing in captivity by prisoners of conscience and persecuted minorities. The Consolations of Writing reveals why the great contributors to this tradition of prison writing are among the most crucial figures in Western literature. Zim pairs writers from different periods and cultural settings, carefully examining the rhetorical strategies they used in captivity, often under the threat of death. She looks at Boethius and Dietrich Bonhoeffer as philosophers and theologians writing in defense of their ideas, and Thomas More and Antonio Gramsci as politicians in dialogue with established concepts of church and state. Different ideas of grace and disgrace occupied John Bunyan and Oscar Wilde in prison; Madame Roland and Anne Frank wrote themselves into history in various forms of memoir; and Jean Cassou and Irina Ratushinskaya voiced their resistance to totalitarianism through lyric poetry that saved their lives and inspired others. Finally, Primo Levi's writing after his release from Auschwitz recalls and decodes the obscenity of systematic genocide and its aftermath. A moving and powerful testament, The Consolations of Writing speaks to some of the most profound questions about life, enriching our understanding of what it is to be human.

A Philosophical Enquiry Into the Origin of Our Ideas of the Sublime and Beautiful

With an Introductory Discourse Concerning Taste

Job, Boethius, and Epic Truth *Cornell University Press*

Calling into question the common assumption that the Middle Ages produced no secondary epics, Ann W. Astell here revises a key chapter in literary history. She examines the connections between the Book of Job and Boethius' s Consolation of Philosophy—texts closely associated with each other in the minds of medieval readers and writers—and demonstrates that these two works served as a conduit for the tradition of heroic poetry from antiquity through the Middle Ages and into the Renaissance. As she traces the complex influences of classical and biblical texts on vernacular literature, Astell offers provocative readings of works by Dante, Chaucer, Spenser, Malory, Milton, and many others. Astell looks at the relationship between the historical reception of the epic and successive imitative forms, showing how Boethius's Consolation and Johan biblical commentaries echo the allegorical treatment of" epic truth" in the poems of Homer and Virgil, and how in turn many works classified as "romance" take Job and Boethius as their models. She considers the influences of Job and Boethius on hagiographic romance, as exemplified by the stories of Eustace, Custance, and Griselda; on the amatory romances of Abelard and Heloise, Dante and Beatrice, and Troilus and Criseyde; and on the chivalric romances of Martin of Tours, Galahad, Lancelot, and Redcrosse. Finally, she explores an encyclopedic array of interpretations of Job and Boethius in Milton's Paradise Lost, Paradise Regained, and Samson Agonistes.

The Prisoner's Philosophy

Life and Death in Boethius's Consolation

The Roman philosopher Boethius (c. 480-524) is best known for the Consolation of Philosophy, one of the most frequently cited texts in medieval literature. In the Consolation, an unnamed Boethius sits in prison awaiting execution when his muse Philosophy appears to him. Her offer to teach him who he truly is and to lead him to his heavenly home becomes a debate about how to come to terms with evil, freedom, and providence. The conventional reading of the Consolation is that it is a defense of pagan philosophy; nevertheless, many readers who accept this basic argument find that the ending is ambiguous and that Philosophy has not, finally, given the prisoner the comfort she had promised. In The Prisoner's Philosophy, Joel C. Relihan delivers a genuinely new reading of the Consolation. He argues that it is a Christian work dramatizing not the truths of philosophy as a whole, but the limits of pagan philosophy in particular. He views it as one of a number of literary experiments of late antiquity, taking its place

alongside Augustine's Confessions and Soliloquies as a spiritual meditation, as an attempt by Boethius to speak objectively about the life of the mind and its relation to God. Relihan discerns three fundamental stories intertwined in the Consolation an ironic retelling of Plato's Crito, an adaptation of Lucian's Jupiter Confutatus, and a sober reduction of Job to a quiet dialogue in which the wounded innocent ultimately learns wisdom in silence. Relihan's claim that Boethius's text was written as a Menippean satire does not rest merely on identifying a mixture of disparate literary influences on the text, or on the combination of verse and prose or of fantasy and morality. More important, Relihan argues, Boethius deliberately dramatizes the act of writing about systematic knowledge in a way that calls into question the value of that knowledge. Philosophy's attempt to lead an exile to God's heaven is rejected; the exile comes to accept the value of the phenomenal world, and theology replaces philosophy to explain the place of human beings in the order of the world. Boethius Christianizes the genre of Menippean satire, and his Consolation is a work about humility and prayer. "Acknowledging that the Consolation of Philosophy is 'over-familiar and under-read, ' Joel Relihan puts to the side old bromides about the work and instead pays careful attention to the narrative(s) Boethius constructs, grounding his readings in the contexts the work cultivates, especially its Menippean elements. The result is perhaps the first satisfying reading of the Consolation to be produced, a satisfaction felt also in the ways Relihan mirrors Boethius himself in the thoroughness of his scholarship and the elegance of his exposition. No one who studies Boethius will be able to ignore this book." --Joseph Pucci, Brown University "Anyone who has been fascinated, intrigued, or perhaps puzzled by the meaning, structure, or argument of Boethius's Consolation of Philosophy will find Joel Relihan's new book a welcome addition to the study of this core text of the early medieval world whose influence extends to the present time. Relihan's study is a tour de force that belongs in the library of all those who appreciate Boethius's depth and subtlety. Fortune's wheel has indeed turned in the favor of those who wish to explore with Relihan the intricacies and brilliance of the Consolation." --Fr. John Fortin, O.S.B., Saint Anselm College

The Consolation of Philosophy: Boethius, The Consolation of Philosophy

The Consolation of Philosophy of Boethius *Jazzybee Verlag*

Boethius' best-known work is the "Consolations of Philosophy" written during his imprisonment -- "by far the most interesting example of prison literature the world has ever seen." It is a dialogue between Philosophy and Boethius, in which the Queen of Sciences strives to console the fallen statesman. The main argument of the discourse is the transitoriness and unreality of all earthly greatness and the superior desirability of the things of the mind. There are evident traces of the influence of the Neo-Platonists, especially of Proclus, and little, if anything, that can be said to reflect Christian influences.

The Freedom of the Will is a work by Christian reformer, theologian, and author Jonathan Edwards which uses the text of Romans 9:16 as its basis. It was first published in 1754 and examines the nature and the status of humanity's will. The book takes the classic Calvinist viewpoint on total depravity of the will and the need of humanity for God's grace in salvation. Although written long before the modern introduction and debate over Open Theism, Edwards' work addresses many of the concerns that have been raised today over this view. Edwards responded that a person may freely choose whatever seems good, but that whatever it is that seems good is based on an inherent predisposition that has been foreordained by God.

The ‘Roman de la Rose’ and Thirteenth-Century Thought *Cambridge University Press*

The first truly in-depth, interdisciplinary study of philosophical questions in the seminal medieval literary work, the Roman de la Rose.

The Cambridge Companion to Boethius *Cambridge University Press*

Boethius (c.480–c.525/6), though a Christian, worked in the tradition of the Neoplatonic schools, with their strong interest in Aristotelian logic and Platonic metaphysics. He is best known for his Consolation of Philosophy, which he wrote in prison awaiting execution. His works also include a long series of logical translations, commentaries and monographs and some short but densely-argued theological treatises, all of which were enormously

influential on medieval thought. But Boethius was more than a writer who passed on important ancient ideas to the Middle Ages. The essays here by leading specialists, which cover all the main aspects of his writing and its influence, show that he was a distinctive thinker, whose arguments repay careful analysis and who used his literary talents in conjunction with his philosophical abilities to present a complex view of the world.

Remaking Boethius

The English Language Translation Tradition of the Consolation of Philosophy *Acmr's Publications*
Provides a comprehensive inventory of all English translations of the 'Consolatio' of Boethius and supplies basic information on the salient features that interested readers will need in initial phases of research on the large and complex English translation tradition. This volume is a reference work, organized chronologically in its sections, with a separate entry for each translator's work. The sections are defined by the type of translations they comprise, whether complete, partial, meters only, etc. The plan of the book is encyclopedic in nature: some biographical material is provided for each translator; the translations are described briefly, as are their linguistic peculiarities, their implied audiences, their links with other translations, and their general reception. Sample passages from the translations are provided, and where possible these are two of the most well-known moments in the 'Consolatio': the appearance of Lady Philosophy, narrated by the Prisoner, and the cosmological hymn to the 'Deus' of the work, sung by Lady Philosophy.

The Consolation of Philosophy as Cosmic Image *Renaissance Society of America*

In this study, Uhlfelder (recently deceased) argues convincingly that, in portraying his literary persona as an exemplum of man in his quest for self-knowledge, Boethius has made the whole Consolatio a cosmic image representing man as microcosm. The mental faculties of sensus, imaginatio, ratio, and intellegentia are arranged as a proportion suggesting both Plato's famous "divided line" at the end of Book 6 of the Republic and, at the same time, the four elements of the physical cosmos which, according to the Platonic Timaeus, are connected with one another so as to form a geometrical proportion. The philosophical argument of the Consolatio in books II through V comprises another cosmic image with III. M.9 at its exact center; in addition, the other three cosmic depictions, revolving as concentric circles around III. M.9, may be viewed as forming an image of cosmic order. In its structure, then, Boethius' work is an anagogic eikon which formally depicts its content.

Boethius *Oxford University Press*
This book offers a brief, accessible introduction to the thought of Boethius. After a survey of Boethius's life and work, Marenbon explicates his theological method, and devotes separate chapters to his arguments about good and evil, fortune, fate and free will, and the problem of divine foreknowledge. Marenbon also traces Boethius's influence on the work of such thinkers as Aquinas and Duns Scotus.

Meditations and Other Metaphysical Writings *Penguin UK*
Of all the works of the man claimed by many as the father of modern philosophy, the MEDITATIONS, first published in 1641, must surely be Rene Descartes' masterpiece. This volume consists of not only a new translation of the original Latin text and the expanded objections and replies, but also includes selected correspondence and other metaphysical writings from the period 1641-49.
