Trends In Radiation Protection Of

2. Trends in radiation protection 2.1. Radiation protection system. The system of radiation protection, defined in ICRP Publication No. 60 and European Basic Safety Standards 96/29, consists of justification, optimisation and individual risk limitation principles. The optimisation principle, to keep the doses as low as reasonably achievable (ALARA), requires that the radiation protection and the (direct and indirect) costs related to dose reduction have to be weighted against each other and ...

(PDF) Trends in radiation protection of patients in modern

... Recent trends regarding radiation protection in PET/CT imaging will be discussed, and practical recommendations for reducing radiation doses to staff and patients will be discussed and summarised. Generally, the CT dose component is often higher in magnitude than the dose from PET alone; as such, focusing on CT dose reduction will decrease the overall patient dose in PET/CT imaging studies.
