Free download Organic Chemistry (8th edition) written by Paula Yurkanis Bruice in pdf. The chapters on organic chemistry are very well written. Unfortunately the biochemistry chapters toward the end are much more difficult to follow, and lack explanation at a lot of points. The blurbs about scientists were disappointing as well, since all they say is what universities they attended, probably the least important aspect of their personality and career.

The Eighth Edition assembles a solid framework for considering natural chemistry by combining principles of reactivity that pupils will employ during the program, discouraging memorization. With more programs than any other textbook, Dr. Bruice always joins structure and reactivity to what happens in our cells and strengthens the basic reason behind most chemical reactions electrophiles respond with nucleophiles.
